RECOMMENDATION

It is recommended that the Board authorize a budget adjustment in the amount of \$2,662 from Fund Center 857- Quimby Fees to Fund Center 200- Maintenance Projects to allocate Quimby funds in Areas 3 and 5 for rehabilitation of existing neighborhood and park and recreation facilities by 4/5 vote.

DISCUSSION

Quimby Funds can be used for the purpose of developing new or rehabilitating existing neighborhood and community park or recreation facilities. Quimby funds are collected from a developer at the time of subdivision of property and must be used for the purpose of improving open space and park lands within the neighborhood or the community where the subdivision took place. The rehabilitation of parks projects meets the requirements for use of Quimby funds. The funding available in Quimby Area 3 is \$40,988, and \$1,409 of that \$40,988 must be designated before July 1, 2016. The funding available in Quimby Area 5 is \$5,068, and \$1,253 of that \$5,068 must be designated before July 1, 2016. If these funds have not been designated for a park project within five-years after fees are paid for a subdivision project, they must be returned to the developer or to the current owner(s). Therefore, staff is proposing to designate these funds for future rehabilitation projects in the respective Quimby areas. There is no deadline for the actual construction of the projects but designating funds now would allow for future projects to proceed when ready. Projects are identified annually by the Parks and Recreation Department and through requests from other organizations.
